...and my documents are **sensitive!**  
Can you make my intranet **compliant to ISO27001?**

Regulations

## Research on Building **Globally Award Winning Intranets** from the Nielsen Norman Group:

### Methodology

Over the last 5 years the average time to build a company intranet has reduced from over 60 months to an average of 16 months. The Nielsen Norman Group attribute this shift to the use of Agile methodologies which enables a quicker deployment and usage leading to more frequent iterations and changes based on real-life usage.

### Platform

Over the last 5 years an increasing number of Top 10 intranets have been built on SharePoint

culminating in 2016's Design Annual with 8 of the 10 winners intranets built on SharePoint.

### Skills

Over the last 5 years the majority of the NNG Top 10 Intranets have included external consulting firms and intranet experts. In 2016 all of the winners of this prestigious award used intranet experts from consulting firms like Intervate.

## Dynamic Intranet Services - The Offering

**Intervate's Dynamic Intranet Services offering provides a tried and tested, award winning and world class approach to building intranets using agile methodologies on SharePoint on-premises, Online and Hybrid deployment.**

### Experience

Intervate's intranet teams have years of experience of building intranets and closely track the progress of trends, advances in technology and tools to achieve a world class intranet.

### Costing

All projects are costed based on the agile methodology and deliver value from the first sprint ensuring that your intranet project remains within budget, delivered on-time and achieves user and management satisfaction.
